ANDRIANNE BENIAHAN

Technical Virtual Assistant | CS Student | Web, AI & Admin Support

beniahan321@gmail.com | linkedin.com/in/awbeniahan | awbeniahan-va-portfolio.vercel.app

PROFESSIONAL SUMMARY

- 3rd-year Computer Science student at University of the Cordilleras with a solid web foundation: HTML, CSS, JavaScript, SQL, Git/GitHub.
- Covers both admin and tech tasks: data entry, spreadsheets, documents, research, Python scripts, and website edits.
- Detail-oriented: I review my own work, including AI-assisted output, before delivering it.
- Async-ready: clear tasks and deadlines, followed by concise written status reports.
- Fluent written and spoken English; 70 WPM typing speed (98% accuracy).

SKILLS

Web & Tech: HTML, CSS, JavaScript, Python (automation scripts), SQL and basic data cleaning, Git/GitHub, Vercel, Google Colab, Java, Tech troubleshooting
Admin: Excel data entry and spreadsheet cleanup, MS Word/Office, digital file organization, online research and summaries, Trello, Slack, Gmail, Google Calendar
Working Style: AI-assisted workflows (Claude, Gemini, ChatGPT; output always verified), clear written and spoken English, attention to detail, problem-solving

CERTIFICATIONS

- AI Fluency: Framework and Foundations, Claude Academy (Anthropic), issued Oct 2026
- Claude 101, Claude Academy (Anthropic), issued Sep 2026

ADMIN PROJECTS (FICTIONAL DEMO DATA)

Details and screenshots: awbeniahan-va-portfolio.vercel.app/#admin-projects

Real Estate Data Cleanup | Excel
Cleaned a 100-row lead list: removed 10 duplicates, standardized names and dates, flagged missing client emails, and built a pivot table.

Inbox Organization | Gmail
Sorted 27 emails into 5 color-coded labels using 3 filters, so only the 4 urgent emails stay in the inbox.

Executive Calendar & Time-Zone Scheduling | Google Calendar
Built a 20-event sample week across Eastern, London, Sydney, and Philippine time, plus a 30-minute booking page that hides conflicting slots.

Client Task Board & Team Chat | Trello + Slack
Built a 12-card board with an urgent filter and an automation rule, and a Slack workspace where urgent updates link to their cards.

TECH PROJECTS

Web Scrapbook | Front-End Showcase (HTML, CSS, JavaScript, Vercel)
Built a responsive scrapbook-style site from scratch and deployed it live on Vercel.
Live site: web-scrapbook.vercel.app

Habit Tracker | Offline Web App (HTML, CSS, JavaScript)
Offline habit tracker with heat maps, streak badges, a stats screen, and photo proof. No libraries, no account, data stored on the device with backup and restore.
Live demo: awbeniahan.github.io/habit-tracker | Code: github.com/awbeniahan/habit-tracker

Image Scraper | Automation Script (Python, Google Colab)
Collects images from search engine queries by keyword into folders. Test run: 48 of 50 images in about 2 minutes (est. 30–60 minutes by hand).
Code: github.com/awbeniahan/image-scraper

VA Portfolio Website (HTML, CSS, JavaScript, Vercel)
Built from scratch and hosted on Vercel to feature services, projects, and availability.
Live site: awbeniahan-va-portfolio.vercel.app

EDUCATION

Bachelor of Science in Computer Science | Expected graduation: August 2027
University of the Cordilleras

AVAILABILITY

Monday to Friday, usually 9 PM to 1 AM Philippine time (about 20 hours a week), flexible between 3 PM and 2 AM. Part-time, remote, asynchronous.
