

ANDRIANNE BENIAHAN

Technical Virtual Assistant | CS Student | Web, AI & Admin Support

beniahan321@gmail.com | linkedin.com/in/awbeniahan | awbeniahan-va-portfolio.vercel.app

PROFESSIONAL SUMMARY

- 3rd-year Computer Science student at University of the Cordilleras with a solid web foundation: HTML, CSS, JavaScript, SQL, Git/GitHub.
- Covers both admin and tech tasks: data entry, spreadsheets, documents, research, Python scripts, and website edits.
- Detail-oriented: I review my own work, including AI-assisted output, before delivering it.
- Async-ready: clear tasks and deadlines, followed by concise written status reports.
- Fluent written and spoken English; 70 WPM typing speed (98% accuracy).

SKILLS

Web & Tech: HTML, CSS, JavaScript, Python (automation scripts), SQL & basic data cleaning, Git/GitHub, Vercel, Google Colab, Java, Tech troubleshooting

Admin: Excel data entry & spreadsheet cleanup, MS Word/Office, Digital file organization, Online research & summaries

Working Style: AI-assisted workflows (Claude, output always verified), Clear written and spoken English, Attention to detail, Problem-solving

CERTIFICATIONS

- Claude 101 – Claude Academy (Anthropic), Issued Sep 2026

PROJECTS

Web Scrapbook | Front-End Showcase (HTML, CSS, JavaScript, Vercel) · Live site

- Built a responsive scrapbook-style site from scratch.
- Deployed live on Vercel.

Habit Tracker | Offline Web App (HTML, CSS, JavaScript) · Live demo · Code

- Heat map per habit, streak badges, stats screen, and photo proof. No libraries used.
- Works offline with no account required; local data storage with backup/restore options.

Image Scraper | Automation Script (Python, Google Colab) · Code

- Collects images from search engine queries directly into structured folders.
- Test run: gathered 48 of 50 images in ~2 minutes (~30–60 minutes manual savings).

VA Portfolio Website (HTML, CSS, JavaScript, Vercel) · Live site

- Built from scratch and hosted on Vercel to feature services, projects, and availability.

EDUCATION

Bachelor of Science in Computer Science | Expected graduation: August 2027
University of the Cordilleras
Relevant Coursework: Information Management (SQL), Systems Analysis and Design, Software Engineering, Object-Oriented Programming, Data Mining.

AVAILABILITY

Monday to Friday, 9 PM – 1 AM Philippine Time (~20 hours/week); flexible between 3 PM and 2 AM PHT. Part-time, remote, asynchronous.
